Patient Journey
Watch our video

Thinking about laser vision correction? Here's what our patients' say:

Erica – Tumbi Umbi

Thank you to Dr Arora and his staff for giving me the ability to see properly once again. It is amazing how people take vision for granted. My quality of life has increased 100%. I can see the little things in life that make it beautiful like the leaves on the trees – brilliant! I can drive safely at night now. It is a painless procedure and worth every cent. You can't put a price on the vision I have now, and how it has changed my life. More testimonials available [here](#).

Results from Laser Vision Clinic Central Coast exceed expectations

The clearest evidence of any surgeon's skill is his or her results. We are proud to

report the results of our thorough retrospective analysis of patients of Laser Vision Clinic Central Coast in 2013:

- 96% of all laser eye surgery patients achieved 6/6 (20/20) or better unaided vision (without glasses or contact lens) to correct short sightedness, long-sightedness, astigmatism and the reduced clarity of closer vision as we age.
- 100% of all laser eye surgery patients achieved 6/9 (20/32) or better unaided vision. That is better than the Australian driving requirement standard of 6/12 (20/40).

Our patient post-operative outcome results compare favourably to those reported by a large analysis from the Singapore National Eye Centre of laser refractive surgery in 2010 on almost 38,000 eyes of 20,000 patients over a 10 year period. The Centre's analysis reported approximately 73% of their patients achieved 6/6 or better unaided vision and approximately 90% achieved 6/9 or better unaided vision. [More here](#)

Optometrists - Gain CPD points at your desk

Gain OAA-approved CPD points from the convenience of your own computer – our latest, completely free educational module is 'Cool Approach to Managing Hot Lids'. This brings the number of modules available to 24, all free and accessible online. [Check it out.](#)

Central Coast Optometrist Conference – Sunday 2 March 2014

Laser Vision Clinic Central Coast, a proud partner of Central Coast Day Hospital is pleased to announce that this year's Optometrist Conference promises to be innovative and exciting:

- Gain 12T OAA CPD Points (applied for)
- Hear from 12 industry-leading Ophthalmologists on their very latest ophthalmic knowledge
- Network with colleagues, specialists and suppliers and strengthen your referral relationships

Optometrists asked for more question time and we've delivered providing more interaction opportunities. This combines to offer Optometrists an excellent variety of educational presentations to meet their individual clinical practice and CPD requirements.

Hurry, places are limited. Our conference ticketing this year is organized by Eventbrite. To register and view the Conference Program please go to:
