AUGUST 2014

ACHS Accreditation Success

Presmed Australia Group has achieved an outstanding accreditation result from the Australian Council on Healthcare Standards (ACHS) this month at all its three centres— Ophthalmic Surgery Centre, Epping Surgery Centre and Central Coast Day Hospital. “I’m pleased to advise that we achieved a fantastic result with our ACHS accreditation” says Roger Cronin, Chief Operating Officer. “We have passed all of the National Standards and EQUiP ACHS Accreditation with no recommendations - this is quite unusual and something to be very proud of. The surveyors were impressed by the standards of clinical care and governance across the facilities” says Mr Cronin.

Accreditation had been awarded until August 2017.

Successful JulEYE Education Evenings

Eighty-five GPs came together over three evenings, July 10, July 17 and July 24 2014 to hear the latest development in clinical ophthalmology by our Ophthalmologists. Ophthalmic Surgery Centre, Epping Surgery

Centre and Central Coast Day Hospital hosted these evenings, timed to coincide with the RANZCO Eye Foundation JulEYE public health promotion, to help GPs keep abreast of research and surgical improvements.

Progress Update- First Concrete Pour

The construction of the new Chatswood Eye Hospital has reached a new milestone on August 4 with the pouring of the first concrete slab for the basement of the new building. “This is an exciting phase of the development as the site will now commence major construction work and start to come out of the ground” says Carl Van Selm, Project Manager of Probuild.

The new hospital will have six operating theatres, 16 recovery trolleys, 14 day surgery recliner chairs and four overnight beds and will be a centre of excellence for eye surgery, operating room technologies and private hospital environments. Building commenced in April 2014 and is on track for completion by the end of 2015.

Optometrists - Gain CPD points at your desk

Gain OAA-approved CPD points from the convenience of your own computer with our latest, completely free educational module ‘**Glaucoma Medication: Problems, Products and Predictions**’. This brings the number of modules available to 27, all free and easily accessible online. [Check it out.](#)

Featured Ophthalmologist – Dr Rajiv Shah

Dr Shah completed his undergraduate medical degree at the University of Sydney. He was a medical resident at Royal Prince Alfred Hospital and then undertook specialist ophthalmology training at the Sydney Eye Hospital. He obtained his Fellowship in Glaucoma at Moorfields Eye Hospital, London which runs the busiest tertiary glaucoma clinics in the world.

He has been a VMO at St Vincent's Hospital and Bankstown Hospital for the past 10 years where he has a glaucoma clinic and surgical list at both hospitals. He is actively involved in Sydney Eye Hospital registrar teaching at these institutions. He operates privately at the Epping Surgery Centre. [Read more](#)
