Epping Surgery Centre celebrates 10th year anniversary

This year, Epping Surgery Centre (ESC) celebrates a decade of serving the community with high-quality ophthalmic surgical care. “Over the past 10 years, we’ve seen incredible growth in the number of Ophthalmologists operating at our Centre, the expertise of our staff, the advancement of our technological capabilities and most importantly the outstanding visual outcomes our patients have achieved” says Roger Cronin, Chief Operating Officer of ESC. “Our ongoing success has largely come from our talented and dedicated staff that are focused on the specialized surgical eye care needs of our patients. Working in conjunction with Ophthalmologists operating at the Centre we look forward to building upon our proud achievements for many more years to come” said Mr. Cronin.

Consumer Engagement Meetings

Patients and carers of Epping Surgery Centre and Ophthalmic Surgery Centre were invited in April and May 2014 to morning tea meetings to share their personal care experiences and to offer ideas and suggestions for improvements and change. The goal was to gather information, insights and advice from those who use our

services to inform our planning and decision-making.

Positive feedback and responses were reported by all the participants reflecting our excellent patient satisfaction survey results. Feedback and recommendations made by the participants have been successfully incorporated into our revised patient information brochure and websites.

Update on new Chatswood Eye Hospital

Management attended a ground-breaking ceremony with the developers and builders on 31 March 2014. This was an important milestone with excavation works now commenced. We are now progressing the development of our plans with stakeholder consultations commencing in earnest. The plans involve 4 overnight beds, 6 operating theatres, 6 pre-op anaesthesia trolleys, 14 recliner chairs and 10 patient recovery trolleys.

The new hospital aims to be the number one ophthalmic private hospital in Sydney. The Hospital is on track to open in January 2016.

Optometrists - Gain CPD points at your desk

Gain OAA-approved CPD points from the convenience of your own computer with our latest, completely free educational module 'Ocular Allergies' (*awaiting approval for 1 CPD point*). This brings the number of modules available to 26, all free and easily accessible online.
